ABOUT BUILDANA

Established several years ago in Qatar, Buildana Contacting has solidified its position as a leading company in the construction and interior design industry. Building on its accumulated expertise and continuous successes, the company has expanded its operations to Saudi Arabia, recently registering a new commercial entity to extend its legacy of excellence and innovation.

With the establishment of its new branch in Saudi Arabia, Buildana aims to strengthen its regional presence, forge strategic partnerships, and continue delivering exceptional services that showcase its deep-rooted experience in construction and design.

Buildana ... Where Quality Meets Creativity!

Buildana Contacting has taken up seriously the idea of being one of the biggest traders in Saudi Arabia.

The main principle of our company is the customer's demand, determine the suitable price policy, deliver indefectible products on time and present the quality products and high-quality service.

BUILDANA CONTACTING

VISION

With our headquarters in Qatar and the successful expansion of our operations into Saudi Arabia, we envision Baladna Contracting as a regional leader in the construction industry, driving progress and innovation across the Gulf region and beyond.

MISSION

At Baladna Contracting, our mission is to deliver world-class construction and engineering solutions that meet the evolving needs of our clients while upholding the highest standards of quality, safety, and sustainability.

A modern bedroom interior featuring a large bed with a grey headboard and a purple and grey striped duvet. The bed is flanked by two white bedside tables, each with a black and gold lamp. The wall behind the bed is covered in wood paneling with a geometric pattern of white lines. Several black, wing-shaped pendant lights hang from the ceiling. To the right, there is a white desk with a stack of books and a modern armchair. The floor is made of light-colored wood, and a grey patterned rug is under the bed.

Buildana ... Building The Future Together

BUILDANA CONTACTING

QUALITY MANAGEMENT POLICY

- Professionalism in delivering quality products and services that comply with applicable local and international norms, standards, procedures and best practices.
- Credibility in project management to ensure adequate resources is employed, while product and service control, task monitoring and supervision are finely executed.
- Functionality to allow the involvement of all personnel in the Quality Control System and Management along their specific interests, fields and line of duty.
- Sustainability of the trust and business relationships established with customers, suppliers, employees and the community we serve.

VISION 2030 SAUDI ARABIA

VISION 2030

Buildana Contracting is not just a construction company we are a catalyst for Saudi Arabia's transformation. By blending innovation, sustainability, and cultural pride, we help turn Vision 2030 into reality, one project at a time.

BUILDANA'S COMMITMENT TO VISION 2030 GOALS

Strategic Alignment

Every project we undertake reflects Vision 2030's pillars: a vibrant society, a thriving economy, and an ambitious nation.

Community Engagement

We sponsor workshops and apprenticeships to empower Saudi youth in construction trades, fostering a skilled workforce for the future.

Global Standards

Our adherence to international quality and safety benchmarks ensures Saudi Arabia's infrastructure competes on a global stage.

OUR SCOPE
EPOXY
WORKS

The most straightforward definition of epoxy flooring suggests a flooring surface that comprises multiple layers of epoxy that is applied to a floor with a depth of at least two millimeters.

0.2

EPOXY WORK

Confusion typically arises when comparing an epoxy floor and epoxy floor coating. The difference between the two lies in the depth of the epoxy - as stated, epoxy floors are classified as an epoxy coating of at least two millimeters thick. Any epoxy floor less than two millimeters thick is commonly referred to as an epoxy floor coating.

Self-Leveling Epoxy Floors: self-leveling epoxy is utilized to apply over new, old, cracked, or damaged concrete floors to create a smooth, durable, and a leveled texture on the surface of the floor. Self-leveling epoxy floors not only provide a shiny, seamless look but it comes in many different colors that appeal to commercial, industrial, and residential spaces.

OUR SCOPE
TERRAZZO
WORKS

Terrazzo is a durable and versatile flooring option. Unlike other flooring materials terrazzo is a mix of marble, granite, quartz and other materials. All chips are poured into a cement binder and what comes out is a beautiful flooring option that can last for years.

0.3

TERRAZZO WORK

Buildana Installing terrazzo floors in your home or shopping mall or can provide you with a very beautiful decor. While it can be great with the right application.

One of the best reasons to add a terrazzo floor is to add a lot of style and flare to a room. Since terrazzo floors are not very common, they add to the value of a home as well. Although terrazzo floors can be expensive, homeowners do not have to worry about replacing them for a long time. This is because, when properly installed, a terrazzo floor is extremely durable. Expect these floors to last for decades, if not centuries.

Terrazzo is the trend that is standing the test of time. With flexibility in terms of design and application, this flooring solution has been chosen in a wide variety of commercial and residential spaces to create striking visuals. Covering a limitless array of colors and textures, thanks to the many aggregates available today, terrazzo is being used as much now as it was years ago to create glamorous and truly unique aesthetics.

The system used aluminum pipes, the pipe housing the engine has been designed as compatible with the apparatus of Somfy and Becker smart engines of European technology.

BUILDANA
بنا

OUR SCOPE **CLADDING WORKS**

Cladding is the application of one material over another to provide a skin or layer. In construction, cladding is used to provide a degree of thermal insulation and weather resistance, and to improve the appearance of buildings.

0.7

ALUMINUM CLADDING WORK

Buildana Contracting aim to create fluidity from design to fabrication and into the installation, as we offer a full range of service incorporating all of these aspects.

It is our firm belief, that our commitment to customer care and the combination of our detailed experience in all aspects of cladding installation are what sets us above the pack as the #1 choice for clients requiring a complete range of cladding solutions.

Cladding can be made of any of a wide range of materials including wood, metal, brick, vinyl, and composite materials that can include aluminum, wood, blends of cement and recycled polystyrene, wheat/ rice straw fibers. Rainscreen cladding is a form of weather cladding designed to protect against the elements, but also offers thermal insulation.

OUR SCOPE
**STEEL
WORKS**

Buildana Contracting is a leading player in the steel industry, specializing in the supply and fabrication of steel raw materials and custom steel products., allowing us to deliver precision-engineered products that meet international quality standards.

0.8

STEEL WORK

So far we are the leading company specialized in Stainless steel design and fabrication & installation . We have a complete set of machinery and equipment with very strong comprehensive fabricating capabilities(, such CNC water jet cutting , CNC laser cutting ,CNC grooving machine ,bending, cutting machine.)

Buildana Contracting supplies a wide range of steel raw materials at highly competitive cost-to-cost pricing, ensuring affordability without compromising on quality. We are a reliable partner for companies looking for sustainable, high-quality steel supplies.

We specialize in the fabrication of steel pallets, designed for heavy-duty industrial use, offering both durability and cost-effectiveness. Our steel pallets are tested to meet the highest industry standards, ensuring reliability for long-term use.

NATURAL STONE WORK

OUR SCOPE

STAINLESS STEEL WORKS

products are highly appreciated for features like reliable performance,rigid construction,corrosion resistant finish, sophisticated designs, elegant looks,longer service life,optimum quality & excellent performance.

0.9

STAINLESS STEEL WORK

Stainless steel is more than just a material; it's a symbol of contemporary elegance and enduring quality. With its corrosion resistance, strength, and sleek appearance, stainless steel has become a favored choice for a wide range of applications in architecture and design. From structural components to decorative accents, stainless steel effortlessly blends style with functionality, making it ideal for both interior and exterior use.

Buildana Contracting, we specialize in harnessing the versatility of stainless steel to bring your design visions to life. Whether you're seeking custom railings, handrails, facades, or intricate decorative elements, our team of skilled craftsmen has the expertise to exceed your expectations. We understand the importance of attention to detail and precision in every project, ensuring that the end result not only meets but surpasses your requirements.

STAINLESS STEEL WORK

BOLLARDS

Bollards, which are typically steel posts, provide protection for storefronts, buildings and pedestrian areas as well as being a visual deterrent alerting drivers to areas of risk and proximity (such as drive-through lanes)

Bollards uses in the areas from industrial warehouses to glass storefronts to residential areas, bollards provide an increasingly necessary protection given the increase in distracted drivers and theft by ram-raids

HANDRAILS

Handrails provide support when climbing the stairs, and they also perform a vital role when it comes to safety. With our high-quality handrails made from stainless steel or wood, and our extensive range of accessories, we have the perfect solution for every requirement. Whether it's for indoor or outdoor use, with or without LED lighting, we have the right product for you.

OUR SCOPE

STAINLESS STEEL WORKS

Grating It is widely used as floors, mezzanines, stair treads, fencing, trench covers and maintenance platforms in factories, workshops, motor rooms, trolley channels, heavy loading areas, boiler equipment and heavy equipment areas, etc.

STAINLESS STEEL WORK

STAINLESS STEEL GRATING

It has the most excellent corrosive resistant among all steel gratings and is especially suitable for various strong corrosive environments.

Steel grating, also known as bar grating or metal grating, is an open grid assembly of metal bars, in which the bearing bars, running in one direction, are spaced by rigid attachment to cross bars running perpendicular to them or by bent connecting bars extending between them, which is designed to hold heavy loads with minimal weight. It is widely used as floors, mezzanines, stair treads, fencing, trench covers and maintenance platforms in factories, workshops, motor rooms, trolley channels, heavy loading areas, boiler equipment and heavy equipment areas, etc.

OUR SCOPE
**GYPSUM
WORKS**

Gypsum board is often called drywall, wallboard, or plasterboard. It differs from other panel-type building products, such as plywood, hardboard, and fiberboard, because of its noncombustible core and paper facers.

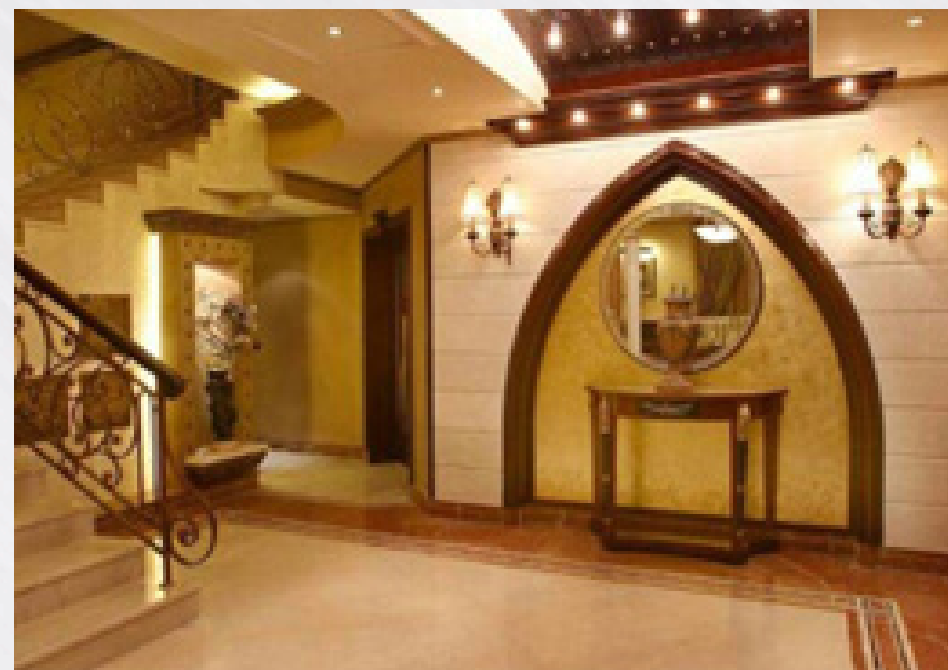

10

GYPSUM WORK

A well equipped workshop for producing Gypsum decorative elements is supervised by our highly experienced Production Supervisors with its complete work force of carvers, master craftsmen and skilled workers Buildana Contracting fibrous plaster designs are suitable for transforming ceilings in all types of property, from heritage mansions to modern homes. Add panel moldings for something truly special.

For years, builders have created ceilings and walls using a variety of different gypsum boards and hanging techniques. Whether you simply nail the boards to the rafters or you create a false ceiling, gypsum board — also known as wallboard, plasterboard, sheet rock, and buster board — has long been the standard in building materials.
